## SELECTED PROJECTS

**Personal Portfolio Website** | WordPress, PHP (Custom Theme)

- Designed and built my portfolio website on WordPress with a custom theme developed from scratch in PHP.
- Showcases my projects and services in a responsive, fast-loading, SEO-friendly layout.

**Interior Design Company Website** | HTML, CSS, JavaScript

- Designed and built a responsive website with before-and-after project showcase and dedicated service pages.
- Added a validated contact form to support client lead generation.

**WordPress Business Websites** | WordPress, Elementor, PHP

- Built responsive business websites with SEO-friendly page structure and integrated contact forms.
- Optimized speed through image compression, caching and plugin clean-up.
- *More live work:* esthercodesdes.com.ng | github.com/Esther-Vivian

## PROFESSIONAL EXPERIENCE

**WordPress Website Maintainer (Volunteer)** - Slum2School Africa *2025 - Present*

- Maintain and update WordPress websites for non-profit organizations, keeping content accurate and sites online.
- Fix recurring issues such as broken links, display errors and plugin conflicts to improve site stability.
- Install and manage plugins while monitoring for security vulnerabilities and outdated dependencies.
- Improve load times through image optimization and streamlined page elements.

**Front-End & WordPress Developer** - Freelance *2024 - Present*

- Delivered 4 responsive websites using HTML, CSS, JavaScript, PHP, WordPress and Elementor, tailored to each client's brand and goals.
- Built interactive features including booking systems, live date/time pickers and CSS animations.
- Customized themes, layouts and contact forms to client specifications, with clear upfront scoping to reduce revisions.
- Applied mobile-first design and tested across browsers with Chrome DevTools; managed all projects with Git and GitHub.

**Front-End & WordPress Development Intern** - Aptech *2023*

- Built and customized WordPress websites for live academy projects, from design brief to final deployment.
- Developed responsive pages in HTML, CSS and JavaScript and tested them across devices and browsers.
- Diagnosed and fixed bugs and layout issues; collaborated with a team using shared Git workflows.
